

Summer adventures  
I was in a camping in summer, We lived in a house that used to be a small shop. The campsite also had a huge beach water slide four. There were twenty-five pools, six saunas, a salt cave. There were many programs for all ages. In 100 meters from the campsite there was a very good restaurant, its name was Buzsa Roses, restaurant. Every day we had dinner. The camping holiday was one week long. Before the camp a man came from Kathmandu. His name is Rajendra. I made all sorts of intrigues against him. Then he had to leave but some friends visited us later from Paris and Germany afterwards we were just at home.

Hello,  
My name is Fanni. I live in Hungary, in Szolnok. I like animals, nature and summer, of course. Where were you on summer holiday? I was in Croatia, in Makrénika Draga with my family. It was fantastic. The weather was sunny and the sea was clean and wonderful, when you went into the sea and looked down, you could see your feet. I ate seafood there. I think it was tasty. There were beautiful suitcases. After Croatia we went to Lake Balaton. Have you ever heard about Lake Balaton? This is very nice place. It's very famous in Hungary. I swam in the lake, did the shopping and went to sightseeing. I enjoyed my journey. I was in very beautiful places. I hope, I will go there next summer. I'm looking forward to meeting with you in Szolnok.

Hello,

My summer was very good. At first, I went to lake Balaton. It was great. I swam in the lake, walked on top of the hills or little mountains (I don't their names), and drank crushed ice. The weather was not very good, but it was OK. I went camping with my family and a friend family. The company was very good, too. Later, I went in Matra for one day. I went with my family and many friend families, too. We went hiking, talked a lot to each other, and we saw Ibona water fall. It was beautiful and amazing. And I was in two camps in summer. They were very good, too. Then I was at home and relaxed the most time. Maybe you can't believe it, but when I was at home it was the best (and not boring). My real holidays, when I was at home all day. I relaxed, relaxed, relaxed... I saw good film, listened music or drew/painted a picture/painting. Unfortunately, I didn't read any books, because we didn't go to the library. But it's no problem. So my summer was very very good.

Looking forward to meet you.

## My summer holiday

My summer holiday started with a dance competition. I'm a dance competitor. After that I went to a nature explorer camp. This was a prize for the great sporters. This was interesting.

Then I went to lake Balaton with my family and my friend. We had a lot of excursions we went swimming in Balaton and we fed horses. We had wonderful time there. Sometimes it rained but we were always happy.

I went to an Observatory in Balonybel with my uncle, twin-sister Hanga, and my friend Iedikó. We watched the sun in the telescope.

We also went to Hévíz to take a bath in the warm water covered with water lilies.

So we had a fantastic summer, I hope you, too! We are looking forward to meeting in Gdansk.

bye, Gerge
